EXPERIENCE

Software Engineer | RippleHire

Jun 2023 – Present

- Developed front-end features using Angular 8+ for the RippleHire product, focusing on delivering efficient and concise code for streamlined performance
- Continuously refined and optimized the code to reduce complexity and enhance execution speed
- Implemented advanced visualization tools using amCharts to present complex data in an easily digestible format.
- Played a pivotal role in the identification and resolution of critical bugs, employing rigorous debugging methodologies to maintain high-quality code standards and ensure the reliability of the RippleHire product.
- Successfully mentored and managed one intern throughout the project, providing guidance on coding standards, Angular framework best practices, and effective debugging techniques.

Software Engineer | RippleHire

Jan 2023 – Jun 2023

- Developed and designed web pages using Angular, HTML, CSS, and Typescript.
- Revamped the Campaign and Events tabs by improving UI designs
- Collaborated with cross-functional teams to ensure timely completion of web page projects and provided regular updates on progress.
